DE RECENSEMENT ET
AGGLOMÉRATIONS DE RECENSEMENT

INTRODUCTION

This report provides final population counts of the 1971 Census for: (a) all incorporated cities, towns and villages; and (b) census metropolitan areas and census agglomerations of 25,000 population and over, with their component parts. Population totals from the 1966 Census are included for comparison purposes. Table 7 lists the incorporated cities, towns and villages in alphabetical order, and gives a guide to the location of each as to province, census division and census subdivision.

This report provides for the first time in a census report the breakdown of each census metropolitan area and census agglomeration into its urbanized core (the continuous built-up area covered by a street pattern design and meeting a density of 1,000 persons per square mile), and fringe (the immediate zone of influence of a multi-municipal urban centre with urban and rural parts). The census metropolitan area is defined as the main labour market of a continuous built-up area having a population of 100,000 or more. The term "census agglomeration" is defined as a statistical area having an urban centre of over 1,000 population with an adjacent built-up area of at least 1,000 population and a minimum density of 1,000 persons per square mile. In this report only those census agglomerations of 25,000 and over are shown, and thus are comparable to the "major urban areas" of the 1966 Census.

Ce bulletin présente les chiffres définitifs de population pour: a) toutes les cités, villes et villages constitués; et b) des régions métropolitaines de recensement et des agglomérations de recensement de 25,000 habitants et plus avec leurs parties composantes, au recensement de 1971. Les chiffres de 1966 sont indiqués pour permettre des comparaisons. Le tableau 7 donne, par ordre alphabétique, les cités, villes et villages constitués et sert de guide de localisation par province, division de recensement et subdivision de recensement.

Ce bulletin donne pour la première fois dans une publication du recensement, la répartition de chaque région métropolitaine de recensement et de chaque agglomération de recensement en noyaux urbanisés (zone bâtie en continu, recouverte d'un réseau de rues et ayant une densité de 1,000 habitants et plus au mille carré) et en banlieue (zone d'influence immédiate d'un centre urbain multimunicipal, avec une partie urbaine et une partie rurale). La région métropolitaine de recensement est le principal marché du travail d'une zone bâtie en continu comptant 100,000 habitants et plus. Le terme "agglomération de recensement" signifie une unité statistique ayant un centre urbain de 1,000 habitants et plus, adjacent à une zone bâtie d'au moins 1,000 habitants et d'une densité minimum de 1,000 habitants au mille carré. Dans ce bulletin, les données ne sont publiées que pour les agglomérations de recensement de 25,000 habitants et plus et sont ainsi comparables aux grandes agglomérations urbaines du recensement de 1966.

Population of Census Metropolitan Areas,* 1966 and 1971

Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Division, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. A standard User's Request Form on which to outline precise tabulation requirements and to request time and cost estimates may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.

Publications du recensement du Canada de 1971

Le présent bulletin fait partie de la série des volumes des recensements de la population, du logement et de l'agriculture de 1971. Cette série compte au total environ 225 bulletins présentés de telle sorte qu'en retirant leur couverture l'utilisateur peut les réunir et constituer ainsi les 6 volumes de la série, qui comprennent 25 parties distinctes. Un auto-relieur à couverture rigide portant le titre approprié est compris dans le prix d'achat de la série complète des bulletins constituant une partie de volume.

Catalogue

On peut se procurer un catalogue qui décrit chaque bulletin de la série des volumes du recensement de 1971, ainsi que les bulletins des autres séries (série préliminaire, série des secteurs de recensement et série spéciale). Le catalogue contient également une liste de prix et une formule de commande. On peut obtenir un exemplaire de ce catalogue en s'adressant à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6. Pour tout renseignement complémentaire sur les publications du recensement, s'adresser à la Division de l'information de Statistique Canada.

Commandes de bulletins

Les commandes de bulletins peuvent être envoyées à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6, ou à la Division de l'édition, Information Canada, Ottawa K1A 0S9. Toute commande doit être accompagnée d'un chèque ou d'un mandat établi à l'ordre du Receveur général du Canada. On peut aussi commander les publications du recensement aux librairies d'Information Canada de Halifax, de Montréal, d'Ottawa, de Toronto, de Winnipeg et de Vancouver. Pour plus de détails sur les comptes de dépôt, les commandes en gros, etc., s'adresser à la Distribution des publications, Statistique Canada.

Autres formes de publication

En plus des diverses publications contenant les résultats du recensement de 1971, de nombreux tableaux seront mis à la disposition des utilisateurs sous forme d'états mécanographiés. Ces tableaux seront également disponibles en microcopie. Les utilisateurs désireux de faire des analyses par des moyens mécanographiques pourront également se procurer un large éventail de tableaux statistiques sur bandes "sommaries". Pour tout renseignement sur le contenu, le prix et la disponibilité des résultats du recensement sur ces supports, s'adresser au Service-utilisateurs, Division du recensement, Statistique Canada, Ottawa K1A 0T7.

Totalisations spéciales

Dans la mesure où le respect du secret des données le permettra, Statistique Canada établira, à l'intention des utilisateurs qui en acquitteront les frais, des totalisations spéciales qui ne font pas encore partie du programme d'exploitation prévu. On peut obtenir auprès du Service-utilisateurs de la Division du recensement de Statistique Canada une formule normalisée sur laquelle l'utilisateur précisera ses besoins et demandera une estimation du délai et du prix.

Cartes et fichiers géographiques

Les utilisateurs pourront se procurer des cartes à grande échelle indiquant les limites des secteurs de dénombrement (c.-à-d. des territoires recensés par chaque représentant du recensement) ainsi que des cartes à petite échelle des divisions de recensement et des autres secteurs statistiques. Les documents constituant les fichiers géographiques (noms, codes, etc. géographiques) sont disponibles sous forme de tableaux présentant les différents secteurs de dénombrement qui constituent les unités administratives et statistiques (par ex., villes, villages, municipalités et secteurs de recensement). Pour plus de détails et pour une indication des frais, s'adresser au Service-utilisateurs de la Division du recensement de Statistique Canada.
